Sarah Binney, Michael Kearns, Tim Ledsam, Emily Lewis, Toby Smith, Catalin Ursachi. 2018.

The Professor is dead, her laboratory has been ransacked, her PhD students are accusing each other of murder, and something is watching from the other side of the Dreamcatcher.

The EMF Puzzlehunt is a treasure-hunt-escape-room-game-novel-play which puts you in the driving seat. Search the campsite for any traces of the Professor's missing research, complete riddles, games and ciphers, and solve the mystery of a death that might change the course of human history.
